Hmm... Your license has expired. You can still continue using all the Storefront Pro features, but you'll need to renew your license to continue getting updates and support. Dismiss

Storefront Pro

Storefront Pro requires that you use Storefront as your parent theme. [Install Storefront now](#)

Add to Cart Button Visibility Module Options

If you need to enable/disable Add to Cart button for some **user roles** only, we suggest using this module in conjunction with Booster's [Modules By User Roles](#) module.

Add to Cart Button Visibility

Enable Module

Enable/disable Add to Cart button globally or on per product basis.
